for your support

Dear Friends,

We are delighted to share our annual report for fiscal year 2010 (July 1, 2009-June 30, 2010). This past year has been an exciting one as we continue to serve our community with engaging science and environmental education. We have also changed the organization's name to reflect a broader educational vision and we have broken ground on our new Science Center Campus. Our ability to fulfill our mission daily and work towards our exciting future vision is due to the financial and inkind contributions from our many donors. We are most grateful for your support.

Now in our second decade, we have well established science education programs for youth, families and adults. Participants have the opportunity to learn more about local ecology and the exceptional setting of our mountain home. Our new name, Walking Mountains Science Center, uniquely emphasizes the importance of a greater personal connection to, and scientific understanding of, nature. Our programs take place in nature with participants literally walking in the mountains. Over time mountains walk, geologically shifting their shapes and formations. Through careful personal observations and scientific study, we can observe and learn about these important changes.

This type of science and environmental education is now more critical than ever. Student achievement in science has declined at a time when a basic understanding of scientific and ecological concepts is increasingly important for students' future success and ability to make critical decisions. Our society has become increasingly distant from the natural world while at the same time we have learned that children's connection to nature is essential to their physical, emotional and intellectual development.

Our new campus, scheduled to be fully operational in the fall of 2011, will allow us to address these important issues in our community and nation. Through sustainable design and buildings, interactive educational displays, and classrooms with immediate access to a diverse ecological site, we will be able to exponentially increase innovative science and environmental education for our school children, families, and adults. The mission of Walking Mountains Science Center has taken on greater importance than ever before as science education and stewardship becomes critical to the health and well being of our environment, economy, and way of life. Our new campus will play an important transformational role in our community.

Our current accomplishments and future vision are possible due to the generosity of our many donors and educational partners. We thank you again for your continued support and we look forward to the exciting journey ahead.

Best regards,

madin Traductos

"I had a blast learning about how bears come out of hibernation. They have nothing to eat so they eat almost 24 hours a day! Thank you so much for your fabulous field trip. I'll remember it forever!"

3rd grader-Edwards Elementary

Youth Programs

Community Programs

Student Assessment Program

In its seventh year, the Student Assessment Program measures scientific literacy and interest in science as a result of taking a Walking Mountains Science Center program. In 2009/10, Walking Mountains evaluated 401 fourth, fifth and seventh grade students through grade and curriculum specific pre and post tests.

The results:

Fourth and fifth grade scientific literacy increased an average 21 percentage points while seventh grade literacy increased an average 17 percentage points.

Field Science Programs The heart and soul of Walking Mountains Science Center, youth programming offered 50 programs to 20 different schools and 2,099 K-12 students throughout Eagle County and beyond for 19,569 contact hours of natural science learning.

Avon In-School During the 2009/10 school year, 270 Avon Elementary School students grades K-5 received 45 minutes of science education each week through our in-school program. First, second, third, and fifth grades also participated in field science courses.

Brush Creek In-School This program was initiated during the 2008/09 school year, using the same curriculum developed for Avon Elementary. In its second year, 2009/10, 460 Brush Creek Elementary School students, grades K-5 received 45-minutes of science education each week. First, second, third and fifth grade students also participated in a field science course.

Integrated Science Study This new and innovative program was initiated in 2008/09 at June Creek Elementary, which in 2009/10 expanded to Edwards and Gypsum Elementary Schools. Walking Mountains has designed science curriculum to align with Eagle County School District wide adopted literacy program. 3rd and 4th grade teachers were trained by Walking Mountains' staff to implement the program in their classes. 204 students received two 45-minute science lessons for 12 weeks total. Students also participated in a field course that complemented the classroom curriculum. We continue to write curriculum for remaining grades with the goal of eventual expansion to all ECSD elementary schools.

After-School Programs Walking Mountains provided after school enrichment for 60 students at Meadow Mountain Elementary.

Girls in Science This after school program specifically for girls grades 3-5 has continued to expand and is now offered at Avon, Edwards, June Creek, Brush Creek and Gypsum Creek Elementary Schools. 150 girls participated in this hour and a half long program once a week for 24 weeks.

Summer Science Camps Last summer, 267 youth enrolled in weeklong day and overnight camps. Children ages 6-13 explored the Eagle River Watershed, while participating in engaging and educational activities.

Walking Mountains Science Center's community programs offer inspiring educational adventures for everyone- resident, visitor, child and adult.

Nature Discovery Center Last year, 21,218 people visited the Nature Discovery Center on Vail Mountain where they learned about mountain ecology from our dynamic team of naturalist interns. Naturalists provided snowshoe tours, guided hikes, family evening programs and lessons for children in ski school. Thank you to Center partners, Vail Resorts and the U.S. Forest Service, for invaluable support.

Public Lands Walking Mountains proudly partners with several organizations and agencies to supplement educational offerings on public lands throughout Eagle County.

- U.S. Forest Service—Holy Cross Ranger District visitor services, Yeoman Park and Gore Creek evening campground programs, guided hikes and snowshoe tours.
- Town of Vail Vail Nature Center adult, family and youth programs including Camp EcoFun.
- · Colorado State Parks Evening campground programs at Sylvan Lake State Park.

Group and Family Excursions Customized Group and Family programs for those wanting to learn more about the outdoors were new for FY 2010. Led by expert naturalists and adapted for the schedule and ages of the participants, program topics included: Colorado Cats, Scary or Necessary; Wildlife Biology; Musing over Mushrooms; Botany Basics; Bear Aware; and Alpine Wildflowers.

Meet the Naturalists Last year, Walking Mountains hired and trained nine seasonal naturalist interns from colleges and universities across the country to provide visitor services and programs that foster an understanding and connection to our natural resources.

Adult Programs Walking Mountains offered a variety of natural science excursions on topics such as birding, wildlife, wildflowers, and ecology. Walking Mountains continues to partner with the Eagle Valley Library District to present the winter High Country Speaker Series at the Avon Public Library.

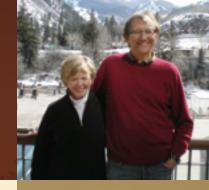

To learn more about our Youth and Community Programs, please visit our website or call our office at 970.827.9725.

Donor Programs

Special Events

Donor Profile
Making a Difference
Man Danson

With 10 years of Board service including Board Chair, Capital Campaign Co-Chair, Development Committee Chair, and event committee member and always an enthusiastic chaperone for school programs, if it involved improving science education for students, Alan Danson was there in a leadership role.

From the early days in Red Cliff as a fledgling school with a skeleton staff and big dreams, to a staff of 16 with award winning programs throughout the valley, a state of the art environmental learning center soon to open and the reality of serving everyone in our community close at hand, Alan has been there cheering us on with enthusiasm, humor, conviction, wisdom and passion.

Alan, as you retire from service to Walking Mountains, please know that you leave a significant, positive imprint on The Science Center, which translates directly to a positive impact on the lives of our youth. Your generosity of time, talent, financial gifts and leadership is truly appreciated. Thank you.

Donor Programs & Highlights

EdVenture Program EdVenture members who annually donate \$1,000 or more receive special invitations to complimentary seasonal learning adventures. This past year EdVenture events included a summer program at Bud and Betsy Knapp's ranch in Lake Creek that focused on everyday sustainable living practices followed by a bountiful brunch donated by the Dusty Boot; First Tracks on Vail Mountain hosted by Chris Jarnot and Vail Resorts; and learning about the night sky from noted astronomer Mike Zawasky, followed by supper and snowshoe, hosted by Cordillera. Contact Natalia Hanks for information on becoming an EdVenture member.

The Annual Fund Walking Mountains relies on gifts from individuals for nearly 65% of our income. Our Annual Fund campaign takes place each fall and helps generate revenue which covers 80% of the cost of field science programs (schools are asked to cover the balance).

Grants Support from local, regional and national foundations, corporations and governments through grants allow us to continue programs like our middle school biodiversity expeditions, *Integrated Science Study, Avon In School, Girls in Science* and our popular summer science camps. This summer we received an overwhelming request for scholarship assistance for summer camps and were able to meet each request.

Expand Your Giving

I% for the Planet This global philanthropic initiative attracts hundreds of companies from small businesses to outdoor industry giants like Patagonia. Members can contribute 1% of sales directly to any of the more than 1,500 environmental nonprofits registered at onepercentfortheplanet.org, including Walking Mountains Science Center.

Colorado Childcare Contribution Credit Colorado tax payers who make donations to the Science School for programs that qualify under the Colorado Childcare Contribution Credit initiative are eligible for up to a 50% tax credit for 2010 gifts. Contact Natalia Hanks for more information.

Planned Giving Consider making a planned gift to the Science School through charitable lead trusts, gift annuities, bequests or other forms of estate planning. Planned gifts offer a range of tax benefits and make a lasting contribution.

In Honor and In Memory Gifts A thoughtful way to give a gift that continues giving is to consider a donation to Walking Mountains in honor or in memory of a family member or colleague. Walking Mountains acknowledges your donation to the recipient or their family members with a letter that does not mention the amount, only the thoughtfulness of your gesture. In honor and in memory gifts are perfect for holiday giving, Mother's and Father's Day, birthdays, anniversaries, etc.

Please direct all donation inquiries to Natalia Hanks, (970) 827-9725 ext. 30, nataliah@walkingmountains.org

Open That Bottle Night A sold out crowd celebrated fine wine and friendship at the 4th annual Open That Bottle Night in February 2010 at Vail Cascade. Sincere thanks to Founders Stewardship Award sponsor Alpine Bank, Facility Sponsor Vail Cascade, Media Sponsor Vail Daily, Beverage sponsor Avon Liquors and so many who made the fundraiser a great success.

Masters of Ceremonies Carolyn Pope and Tricia Swenson, entertainers Tony Gulizia and Mercedes Dauphinais and special guest John Fielder added to the success of the evening, as did many generous silent auction donors, bidders and table sponsors. Heartfelt thanks to all who supported our scholarship drive.

Congratulations to Luke Cartin of Vail Resorts for receiving the Founders Stewardship Award presented by Alpine Bank President, Glenn Davis.

Event Committee: Holly Elliott & Eileen Miller Co Chairs, Jill Alfond, Alix Berglund, Patti Cogswell, Caroline Haines, Jane Johnson, Lynne Mackechnie, Joe McHugh, Jenny Maritz, Jen Mason, Susan Pollack, Susan Rogel, Kris Sims.

Science on the Green On a perfect fall day, 21 teams competed in the 4th annual Science on the Green golf event at Red Sky Ranch. The Norman course was particularly gratifying to the first place team from 1st Bank, comprising David Portman, Kevin Kuebert, Nick Brinkman and Jay Nobrega, who won the Shamble. Ist place in the Best Ball game went to Colorado Capital's Ryan Van Ness, JT Landreth, Barry Beigler and Andie Ohde. Andie and JT also won closest to the pin, while Julie Anderson and Mike Watts won longest drive.

Sincere thanks to Title Sponsor Colorado Capital Bank, Facility Sponsor Red Sky Ranch and Vail Resorts Echo, as well as generous team and product sponsors who contributed to the success of this event. Event chairs: Holly Elliott, Janet Hill, Jeff Koch, Lynne Mackechnie, Lisa & Chip Ruth.

Invitationals Multiday adventures in small groups explore natural and cultural history outside the Vail Valley, engaging scholars and experts to enhance the overall educational experience.

Land of Fire: Yellowstone Invitational Guests stayed on a 600 acre private ranch bordering Yellowstone National Park, enjoying hiking, horseback riding, fishing in the Gallatin and guided day trips into the Park coordinated through Teton Science Schools. Highlights included observing the highest concentration of protected thermal features in the world and learning about predators that abound in Yellowstone.

Gates of Lodore Green River Invitational Adventurers journeyed into a pristine wilderness as they rafted through 1000 ft deep Precambrian canyons, hiked up washes with ancient ruins, fished for trout in clear pools and slept under the stars on pristine beaches. This was the perfect adventure close to home in a fascinating and remote region of Utah. Lodore Canyon is perhaps the most scenic of all the Utah river canyons and offered adventure, natural and cultural history.

Reach for the Peak honors
Susan and Harry Frampton
Reach for the Peak biennially
celebrates those in our
community whose philanthropy
and service go above and beyond.
In August 2010 more than
300 celebrated the Frampton's
commitment as active leaders,
board members and doers in our
community. Their work over many
decades has been transformational
and their generosity touches the
lives of thousands.

Guests enjoyed a southern themed dinner, video highlights and dancing to "Alive on Arrival". Special thanks to emcee Bob Knous, memorable gifts prepared by Matt Frampton, East West Partners and Slifer Smith and Frampton staff, donations by Avon Liquor, flowers by Vintage Magnolia and special thanks to all who supported the evening with their generosity. All funds raised directly support our science programs for school children.

Honorary Co-Chairs: Kathy and Erik Borgen, Argie and Oscar Tang, KSL Partners, Leni and Peter May and Carla and Leonard Wood.
Event Committee: Alix Berglund, Alan Danson, Suzy Donohue, Holly Elliott, Cookie Flaum, Kitty Gwathmey, Sally Johnson, JoAnn Levy, Peggy Nichols, Karen Ryan, Kris Sims, Beth Slifer and Susie Tjossem. Reach for the Peak 2010 gifts that were received within fiscal year 2011 (July 10 – June 11) will be reflected in the 2011 Annual Report.

A Campus Home Nearing Our Goal

Our campaign to build a world class science and environmental learning center passed an important milestone with a groundbreaking in Spring of 2010.

We now set our sights on raising the funds necessary to complete construction of the Meadow Learning Studio and the Educator Residence.

This world class environmental learning center will offer something for everyone in our community:

- Over 6,000 K-12 students in the Vail Valley will will participate in hands-on, outdoor science programs that are aligned with CO state science standards.
- Teachers throughout the region will have access to training programs that rekindle excitement and provide the tools to effectively teach natural science to their students.
- Residents and visitors, families and adults alike, will learn about our spectacular mountain ecology from educational displays and classroom spaces that are accessible to a stream, pond and diverse forests.

Call 970.827.9725 or visit us at www.walkingmountains.org to learn more about how you can help us make this remarkable project a reality for our community.

The campus design will inspire and teach by showcasing the latest technologies in sustainable building and design. By using innovative systems such as an efficient building envelope, passive and active solar, ground source heat pumps, to vegetated roofs and sustainable building materials, it is our intent to become the first science center in Colorado to achieve LEED Platinum Certification. Special thanks to our remarkable design team: Zehren and Associates; Mithun Architects; Sherry Dorward, Landscape Architect; Beaudin Ganze Engineers; J&K Engineers; Monroe & Newell Engineers; Slifer Designs; R.A. Nelson, General Contractor

Walking Mountains board and staff express sincere gratitude for the generosity of the following contributors who supported our Annual Fund from July 1, 2009 to June 30, 2010.

Graduate Fellowship in Natural Science Education

ield science programs are taught by Walking Mountains Science Center's team of Graduate Fellows nose 15- month tenure includes coursework towards a master's degree in environmental education and complements their instructional practices as well as the curricula they teach to K-12 students.

2010 Graduates Walking Mountains graduated its fifth class of Fellows in August: Roddy Beal, Brian Morgan, Laura Fritz, and Gabbrielle Scherzer, Graduate Fellows have the option to complete their graduate degrees focusing on Education at Colorado State University, Prescott College and other Universities that recognize our graduate fellowship.

The Graduate Fellowship position is unique in the state of Colorado. It significantly contributes to the professional development of young teachers and the overall professionalism of the fields of natural science and environmental education.

Welcome to Walking Mountains Science Center

Our new name and taglineexplore your curious naturerepresents an important and exciting milestone. Founded twelve years ago as Gore Range Natural Science School to mostly serve our local school children, Walking Mountains Science Center now serves our entire community- residents and visitors alike. Our new name is meaningful on many levels:

- Our programs take place in nature with participants literally walking in the mountains, emphasizing the importance of a greater personal connection to, and scientific understanding of.
- Over time mountains walk. geologically shifting their shapes and formations. Through careful personal observations and scientific study, we can observe and learn about these important changes.
- Our new campus will be unique in the state of Colorado and have regional appeal beyond our valley and the Gore Range.

Financial Highlights

Our bookstore, located at the US Forest Service Visitor's Center in Minturn, is the Vail Valley's #I source for books on enjoying and studying our local environment including trail guides & maps, naturalist guides, books on environmental science, nature writing and living green.

The :		all and a set details for all of

The income statement reflects revenues and expenses for all school activities, including our capital campaign and the development of the Buck Creek Campus. The pie charts to the right reflect FY 2010 expenses and revenues only related to annual educational activities. The financial statements of Walking Mountains Science Center for the period ending June 30, 2010 were audited by McMahon and Associates, independent certified public accountants. A copy of the complete audit report is available upon request.
