What you can do locally:

- Reduce waste in small and big ways-- anywhere from using reusable cups and dishes to composting and growing your own garden! You can learn more about waste diversion efforts and other sustainability efforts in the valley through [Walking Mountain's Sustainability Program](#).
- Download the Waste Wizard App (available on the App Store and Google Play) to find out more about what and how you can recycle and compost at home!
- [Register to vote](#) and vote for candidates (local to national) that align with your values and prioritize sustainable solutions.
- Shop local, organic farms and farmer's markets
 - Check out Walking Mountains' [Sustainable Food Map](#)
 - Consider limiting your consumption of meat and other animal-based products unless they are locally and ethically sourced
