

Girls in Science

Residential Summer Camp!

Only being offered to Girls in Science After School program participants is the
Girls in Science Expedition Camp!

Set to take place **July 20-22nd, 2020** at **Uncle Bud's Hut** near Leadville.

This overnight camp will focus on our local mountain ecology, wilderness experiences, and an opportunity to get to know girls from other Girls in Science groups. Girls will explore the science of wildlife biology, Leave No Trace, and make connections to the natural world and with fellow campers through hands-on fun and exploration!

This camp is open to all **rising 4th and 5th grade girls** who participated this year in Girls in Science at any of our 9 participating schools. The group is limited to 12 girls and often fills up fast. Scholarships are also available for this camp, please visit the website below and reserve your camper(s) a space today!
