

2023

Summer Science Camp Registration

TIPS & TRICKS

- 1. Plan ahead! Decide which camps you want to sign up for prior to registration on-sale and write them down. The [summer camp calendar](#) can help you plan!**
- 2. Be sure to be on your computer ready to click the registration link for the camp age group you're registering for right when the clock changes to 6:00pm. The different age groups are [K-1st](#), [1st-2nd](#), [3rd-4th](#), [5th-6th](#), and [7th-10th](#).**
- 3. Note that the [Earth Explorers](#) (K-1st camps) are on a different registration page than the [week-long \(1st-2nd\) camps](#), so if you have a 1st grader, you won't be able to sign them up for both camp types at the same time.**
- 4. We recommend using a computer for registration, but a phone will also work.**
- 5. If you're registering for multiple campers, it might be best to have someone you know register for the 2nd camper at the same time on another computer. If you don't have someone to help register a 2nd camper at the same time, prioritize registering the youngest campers first, as these camps sell out the quickest.**
- 6. You will not need to upload any documents, but you will need to know your camper's t-shirt size, the date of their last tetanus shot, and any medications, allergies, or dietary needs they have, along with other basic information about your camper.**
- 7. Our camp registration system doesn't allow you to input information ahead of time. You will need to fill out the camp info during the registration process.**
- 8. If you have a code for a scholarship, you will input the code on the last registration page, which is also where you will fill out your payment information.**
- 9. If a camp is already sold out, you will see the waitlist option instead. Please double check your confirmation emails to verify that you are actually registered for the camp, not on the waitlist. The confirmation email for camp registration and waitlists look similar.**
- 10. Summer camp spots fill up very quickly, and unfortunately we cannot guarantee that everyone will get a spot. If you do not get in the camp you're hoping for, we encourage you to sign up for the waitlist.**
